JELCO EZ-LIFT® vs. RotoLift™ Lift Cases

EZ-LIFT®

- Models fit 40"-98" Flat Screens
- View display horizontally
- Custom foamed interior to protect the display in transit
- JELCO EZ-LIFT® Frame System with shock mounting
- Display Mounting Bracket
- 4" or 6" heavy duty locking casters, depending on model
- Includes cavity cover for model #'s EL-60, EL-65, EL-70 & EL-80, and EL-98
- Optional drape kit, hanging shelf and other accessories available
- Includes stabilizers for model #'s EL-70, EL-80, and EL-98

RotoLift™

- Models fit 26"-70" Flat Screens
- View display horizontally or vertically
- Requires approx. 25% less floor space than horizontal only solutions due to the display storing vertically
- Custom foamed interior to protect the display in transit
- JELCO EZ-LIFT® Frame System with shock mounting
- Proprietary Rotating Mounting Bracket with position lock
- Full range of heights from 60"- 82" with ability to lock in place
- Includes cavity cover and privacy shield to cover the lift for a finished look
- All models include extra storage space for accessories in the case lid
- Four 4" heavy duty locking casters
- Optional drape kit, hanging shelf and other accessories available

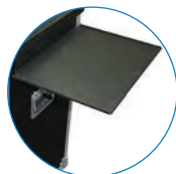

RotoLift™ Dual

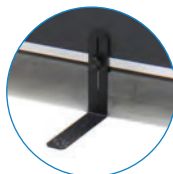

- Models fit two 46"-60" Flat Screens
- View display horizontally
- Requires approx. 25% less floor space than horizontal only solutions due to the display storing vertically
- Custom foamed interior to protect the display in transit
- JELCO EZ-LIFT® Frame System with shock mounting
- Proprietary Rotating Mounting Bracket with position lock
- Full range of heights from 86"- 103" with ability to lock in place
- Includes cavity cover and privacy shield to cover the lift for a finished look
- Four 6" heavy duty locking casters
- Optional drape kit and hanging shelf available
- Includes stabilizers for use on uneven surfaces or high traffic areas
