

JELCO Drapes

Want to dress up your EZ-LIFT® or RotoLift™ case?
Choose one of JELCO's stock or custom drape selections. With three drape options, you are certain to find the perfect option for your case.

Shirred, black drape: JELCO's shirred drape is a great option to dress up your lift case. The shirred drapes are in stock and ready to ship within 1 business day.

CUSTOM Drape: If you're looking to have your brand on your drape, the CUSTOM drape is a great option. The drape has a sharp looking flat drape with a logo or marketing message on the center front panel of the case. Drape background color options are black or white.

CUSTOM-COLOR Drape: This option gives you the most out of your case drape! The CUSTOM-COLOR drape allows you the most versatility and design options. The drape can be any color as well as specific Pantone color match. Single piece drapes can be printed on the center front panel as well as the two side panels and rear if desired. Two piece drapes can be printed front and rear only.

Lead time for printed drapes: 7-10 business days

Artfile instructions: For printed drapes, please send your artwork to orders@jelcoinc.com. Once the art department places the art, you will receive an email proof for approval prior to production.

Acceptable file types: .AI or .EPS
