

JELCO Interactive Touch Table

Mobile Command Center

The JELCO INTERACTIVE TOUCH TABLE provides a portable display solution for real time, on-location situational awareness.

The commander can use the touch screen to interact with multiple video images and seamlessly push content up to a video wall, when available, for all personnel to see.

Whether used during a crisis or for training, JELCO's Interactive Touch Table can be set up in minutes.

Making Your Gear as Mobile as You Are.
